2025 US Payroll Spreadsheet

➤➤➤ 2025 Free Updates

Our product is updated and improved continuously. You can download the latest version of the product at any time. The free update applies only to the version (year) you purchased.

➤➤➤ How to update to 2026?

There are 3 ways to get new version:

1. Do this yourself by updating the tables in the settings sheet (we have added a source link to each table to make updating easier). The problem may be updating the formula if necessary. Unfortunately, this requires fairly good Excel/Google Sheets skills.

2. Purchase the product 2026, including table updates, fixes and a few improvements

3. Purchase Lifetime Access to our Spreadsheet Library, which gives you access to every product and update at no additional cost. The product is available in the spreadsheet library page
